

RINEY APPOINTED TO POLC TO REPRESENT ACSM

The American Congress on Surveying and Mapping (ACSM) has appointed James R. Riney, PE, PS as its representative to the Participating Organizations Liaison Council (POLC) of the National Council of Examiners for Engineering and Surveying (NCEES).

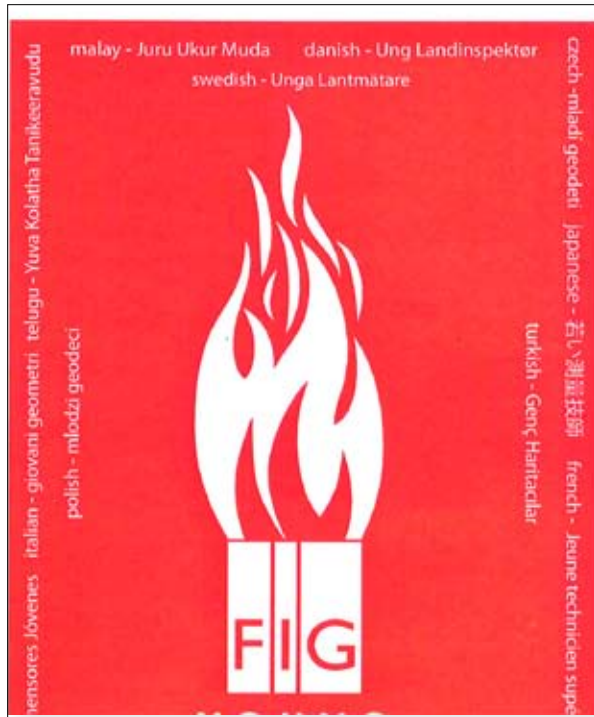

Mr. Riney's qualifications include past legislative efforts improving Kentucky's surveying and engineering laws, including previous service on the Kentucky Board of Licensure for Professional Engineers and Land Surveyors. He has served in various levels of the national examinations preparation services, and assisted in writing standards for surveying and mapping. He is also a long-time member and leader in the Kentucky Association of Professional Surveyors (KAPS) where he served as President in 1991, and is an active member, and Fellow, in the National Society of Professional Surveyors (NSPS), a Member Organization of ACSM.

Mr. Riney was the 2006 recipient of the NCEES Southern Zone Distinguished Service Award and the 2007 recipient of the NCEES National Distinguished Service Award. He also is active in assisting ACSM with its national legislative efforts in Washington, DC.

He is a partner in the firm of HRG, PLLC Surveying & Engineering located in Owensboro, and is heavily involved as a consultant in area land development projects.

ACSM Executive Director Curt Sumner says of Riney, "Jim is highly qualified to serve as the ACSM representative to the NCEES POLC. His knowledge of NCEES procedures and policies, along with his undying dedication to the surveying profession, will serve ACSM well."

ACSM is the non-profit national umbrella organization representing the interests of professionals in the fields of surveying, mapping, geodesy, and the geographic sciences. The NCEES is a non-profit national organization composed of the licensing boards of engineering and surveying representing all 50 states and the U. S. territories. It develops, scores, and administers the exams used to qualify engineers and surveyors for licensure.

Welcome to FIG Young Surveyors!

From all over the globe, we aim to help young professionals kick start their careers by providing them with contacts and services through FIG.

Through our online network, newsletters and distribution around the globe, we can help you make personal contacts, help to find you education and career opportunities overseas or simply just meet new people.

With members from Sweden, Turkey, Poland, Germany, Scotland and Australia, we're looking to expand our network further! Take the challenge and join FIG Young Surveyors!

If you'd like to be involved, you can join our group by sending us an email at
