

## **The FIG REPORT VOL. V. NO. 1**

*John D. Hohol*  
ACSM FIG Forum Head  
of Delegation

### **ACSM FIG Forum FIG Congress Student Fellowship winner**

I am pleased to announce that the ACSM FIG Forum FIG Congress Student Fellowship has been awarded to Daniel Helmricks, a sophomore at the Oregon Institute of Technology, for his submission of a paper entitled "Motor Vehicle Accident Forensic Survey."

This fellowship award provides full funding for Daniel to travel to, attend, and participate in the XXIV FIG International Congress 2010 to be held this April in Sydney, Australia. This is an exceptional opportunity for students in surveying and mapping programs to network with surveyors, fellow students, and young surveyors from around the world participating in this preeminent international surveying conference, while living with a local surveyor/student family during the Congress.

Daniel will be part of the official ACSM FIG Forum Delegation, and he will present his paper at the Congress under the auspices of FIG Commission 5 (Positioning and Measurement) and Commission 6 (Engineering Surveys). Daniel will also represent the ACSM FIG Forum in the FIG Young Surveyors Network. Congratulations, Daniel!

This is the first time for this prestigious award to be awarded. It is sponsored by the three ACSM Member Organizations which participate in the International Federation of Surveyors (FIG)—the American Association for Geodetic Surveying (AAGS), the Geographic and Land Information Society (GLIS), and the National Association of Professional Surveyors (NSPS).

Complete information about the FIG Congress, including program, venue, and registration information can be found at [www.fig2010.com](http://www.fig2010.com). More information about FIG is available at [www.fig.net](http://www.fig.net).

Information about ACSM and its participation in FIG and the ACSM FIG Forum can be found at the ACSM website ([www.acsm.net](http://www.acsm.net)) under the "Advocacy" tab and then FIG Forum. ■
